## the world works with ADP

---

ADP, the world leader in payroll services, benefits administration and human resource management. The customized services, long-standing experience and thorough knowledge of the complex Dutch laws and regulations, make ADP into the ideal partner for international companies with a branch in the Netherlands.

ADP Nederland BV has been established for over 40 years and is the largest market player in the Netherlands that has payroll services as its core business. Almost one million employees in the Netherlands receive their pay slip from ADP each month.

### Employer Services

On the world stage, 30 million people rely on the payroll processing of Automatic Data Processing Inc., a company established in 1949 and located in Roseland, New Jersey, USA. ADP Inc. with 500,000 customers, is one of the largest companies in the world whose business is computerized transaction processing, data communication and information services.

ADP Nederland is part of the Employer Services division which together with Brokerage Services (stock-broking transactions), Dealer Services (computer services for automotive dealers) and Claims Services (repair costs calculation) represents the lion's share of the activities.

ADP Inc. has been listed on the NYSE since 1967 and has gained the coveted triple A status, a guarantee of financial stability. In 2004 ADP Inc. grew by 9 percent to achieve a turnover of over 8 billion US dollars.

The international orientation and economies of scale have many advantages.

In the field of product development for example. But also in the field of knowledge about the numerous variations in legislation per country. We know about the requirements you have in your own country and all about the differences with Dutch legislation.

### ADP also works for:

Coca Cola  
Hewlett Packard  
Sun Microsystems  
3M  
Business Objects  
Danka

### Sarbanes Oxley

Our global scale leads to constructive alliances. For example, ADP works closely with the software specialist SAP on innovative applications. And of course ADP Inc. complies with the Sarbanes Oxley legislation.

The European branches of ADP are also able to provide their clients with the SAS 70 type 2 report\*. ADP was even the first payroll processing company and one of the first service providing companies in the Netherlands to do this.

### Managed Payroll Services

The Netherlands has a complicated system of laws and regulations in the field of taxation and social insurance. Consequently a correct payroll not only needs a customized system, but also a large amount of time, knowledge and experience. Companies demanding continuity and efficiency therefore frequently select ADP Managed Payroll Services.

### How it works:

ADP takes over the complete execution and the responsibility for the whole payroll process provides continuity in your salary payments and provides you with all the necessary management information supplies, on behalf of your company, information to the tax authorities, employers' organizations, insurance companies and other bodies provides you with a permanent contact person who supports you throughout the whole payroll process.

### Continuity guaranteed

ADP in fact verifies the whole route. We ensure that the calculations are correct and the proper rules and

regulations are applied. Your employees can count on a transparent specification. Therefore: continuity is guaranteed. Large, medium and small-sized employers are all enthusiastic about Managed Payroll Services.

### World Class Service

We are committed to advancing a World Class Service vision in the belief that service quality is the ultimate competitive advantage for our businesses.

We see World Class Service as a journey where, whenever we approach an identified destination, we increase our objectives and raise our goals in order to become even better.

ADP is the world's leading provider of computerized payroll, transaction processing, data communications and information-based business solutions.

Multinational corporations need global employer solutions that are efficient, precise and adaptable to local and regional conditions. ADP Global Employer Services reduces risk, gives maximum flexibility and control and minimizes costs.

### On line

You don't need to outsource everything? You can use the systems and services of ADP to provide optimal support to your payroll, benefits and HR administration. You yourself decide to what extent you will outsource the activities. Our online solutions will then very likely be the right choice for you. From payroll online to FlexBenefits, the system for choosing flexible benefits. Whatever the size of your company or needs, ADP has the most suitable solution. As a customer of ADP you will have at your disposal a continuous stream of professional knowledge from an experienced specialist.
